I have been treated by Nicole for the past six months now and the results are amazing. Not only has she been able to work with me physically but mentally as well. It seems that no matter what's going on, she has a treatment and a plan of attack for addressing these issues. For long periods of time, I would get a severe stomach cramp in the morning sometimes causing me to throw up. Western medicine was unable to give me an answer for this condition and all treatments I tried gave me no lasting relief. Within a few visits, I noticed a significant difference and have not had that type of discomfort since. I am a chiropractor and a martial artist, I have two black belts in ninjitsu, blue belt in Tang So₃ Do, purple belt in Tae Kwon Do and many other disciplines, I know the importance of keeping my body in peak physical condition and with Nicole's help I have been able to complete this.

I would highly recommend and have recommended Nicole's treatment to my patients, family and friends. Nicole has a unique approach to acupuncture and works with you towards a common goal. This type of treatment works well on its own or in combination with other treatments.

Thank You Nicole for Everything!!!!
